LIST OF COMMON ACRONYMS

AFB	Air Force Base
AFBCA	Air Force Base Conversion Agency
AR	Administrative Record
BRA	Baseline Risk Assessment
CAR	Contamination Assessment Report
CDAP/QAPP	Chemical Data Acquisition Plan/Quality Assurance Project Plan
CERCLA	Comprehensive Environmental Response, Compensation, and Liability Act
CEV	Environmental Management Flight
CWA	Clean Water Act
DERA/DERP	Defense Environmental Restoration Account/Program
DOD	Department of Defense
DPM	Defense Priority Model
DSMOA	Defense and State Memorandum of Agreement
EE/CA	Engineering Evaluation/Cost Analysis
FFA	Federal Facilities Agreement
FS	Feasibility Study
HRS	Hazard Ranking System
HSP	Health and Safety Plan
IDEM	Indiana Department of Environmental Management
IDNR	Indiana Department of Natural Resources
IR	Information Repository
IRA	Interim Remedial Action
IRP	Installation Restoration Program
MOA/MOU	Memorandum of Agreement/Understanding
NPL	National Priorities List
OU	Operable Unit
PA	Preliminary Assessment
RA/RAP	Remedial Action/Remedial Action Plan
RAB	Restoration Advisory Board
RACER	Remedial Action/Cost Estimating and Risk Model
RCRA	Resource Conservation and Recovery Act
RD	Remedial Design
RFA	RCRA Facility Assessment
RFI	RCRA Facility Investigation
RI	Remedial Investigation
ROD	Record of Decision
SACM	Superfund Accelerated Cleanup Model
SAP	Sampling and Analysis Plan
SARA	Superfund Amendments and Reauthorization Act of 1986
SC	Site Closeout
SHERP	Safety and Health Emergency Response Plan
SI	Site Inspection/Site Investigation
SWMU	Solid Waste Management Unit
TRC	Technical Review Committee
UST	Underground Storage Tank

COVER SHEET

Responsible Agency: U.S. Air Force

Action: The Air Force Base Conversion Agency (AFBCA) has established Administrative Record (AR) files at AFBCA bases. The AR files are being prepared in accordance with the requirements under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended by the Superfund Amendments and Reauthorization Act (SARA). The index for the administrative record is a listing of documents contained in the administrative record file.

The administrative record file is compiled as work on the Installation Restoration Program (IRP) sites progress, and it shows the basis for the selection for a response action. The administrative record file also serves as a vehicle for public participation since a copy of the record is legally required to be available for public review at a repository at or near the site.

Purpose and Need: To provide administrative support for the Installation Restoration Program (IRP) at AFBCA bases and to meet the policies for programming guidance detailed by Air Staff in their letters of 12 Jan 88 and 15 Apr 92. Section 113(k) of CERCLA, as amended by SARA, requires the development and retention of documentation for IRP sites at which a response action is planned or ongoing. Executive Order 12580 delegates to the Secretary of Defense the responsibility for establishing this AR file for DoD sites. The AR serves two primary purposes: the record establishes the documentary basis for selection of a response action for each site, and the record ensures public participation in the process of response selection.

The administrative record index provides a listing of documents relevant to the decision process for a response action and public participation in the process.

For further information contact: Mr. Jerry Cleaver, AFBCA/EV, 1700 North Moore St, STE 2300, Arlington, VA, 22209-2802 at DSN 226-5539 or COMM 703-696-5536.

SECTION 1
INTRODUCTION

ADMINISTRATIVE RECORD FILE AND INDEX

INTRODUCTION

The Air Force Base Conversion Agency is conducting Installation Restoration Program (IRP) activities at Grissom Air Force Base (AFB), IN. The purpose of the IRP is to identify, evaluate, and clean up (remediate) any former disposal or spill sites that may contain hazardous materials.

Under section 113(k) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended by the Superfund Amendments and Reauthorization Act (SARA), federal facilities are required to establish an administrative record (AR) for every CERCLA response action, and to make a copy of the record available for public review. The AR file is an AR in progress and is compiled as work on the site progresses and shows the basis for the selection of a response action.

The public version of the AR file, which is on CD-ROM disks, will be considered a non-circulating reference document. This will allow the public greater access to the AR documents, and will minimize the risk of loss or damage. Individuals may print any documents contained in the record file, according to the printing procedures at the library.

Section 2 of the AR index is a listing of documents contained in the AR file which is located at the base environmental office. Several documents contained in the AR file refer to bibliographic sources. The referenced bibliographic sources are not listed separately in the AR index. The data fields listed below correspond with the OSWER guidance #9833.3A-1. All of the documents listed in the index appear in document-by-document order. The date the index was prepared appears in the title of the report.

The AR file will be maintained by the base. Periodically, supplemental material will be added to the AR file. As documentation is added to the record, the AR index will be updated by the base.

DOCUMENT INFORMATION

The information, also known as "data fields" or "fields", extracted from each document includes:

- *AR/IR File Number.* A unique number which identifies a specific document.

- ***Document Location:*** The location of the document.
- ***Document Date:*** The date of the document.
- ***Document Type:*** Description of the document type, such as plan, correspondence, memorandum, etc.
- ***Author:*** Name of individual author(s).
- ***Author Affiliation:*** Agency or affiliation of author.
- ***Corporate Author:*** Agency or affiliation with the author.
- ***Recipient:*** Name of recipient of document.
- ***Recipient Affiliation:*** Agency or affiliation with the recipient.
- ***Subject/Title:*** Title, subject, or description of the document.
- ***Environmental Resource:*** Environmental resource affected.
- ***Site(s):*** IRP site number and name.
- ***Operable Unit(s):*** Number of the operable unit to which the site belongs.
